

Botanical Vitamin C is the ideal form, for optimal immune, heart, lung, adrenal, brain, skin and gum health

Vitamin C is often neglected even though it's considered one of the most important, fundamental nutrients for heart, brain and whole-body health.

- Vitamin C is a component of transforming generic stem cells to highly specialized heart cells.
- Vitamin C is needed for collagen, a protein that forms skin, blood vessels and all tissues of the body.
- Vitamin C is required for cells to burn fat for energy.
- Vitamin C is required for up-take of iron. Sub-optimal iron metabolism can contribute to fatigue.
- Vitamin C deficiency directly affects immune function and sugar metabolism.
- As a primary antioxidant, Vitamin C protects cells of the eye, heart and blood vessels.
- Vitamin C is required for healthy myelin, essential for function of the nervous system.

**Packaged in Swiss Violet Glass
for maximum protection**

Camu Camu contains more Vitamin C than any other known botanical source. This whole fruit powder is 100% pure Camu Camu fruit without fillers, flow agents, or synthetic ascorbic acid. Camu Camu fruit powder contains more than 100mg Vitamin C per serving along with its naturally occurring bioflavonoids Quercetin, Rutin and the phenolic compound Ellagic acid. Camu Camu's profound health benefits could be attributed to its combination of nutrients which include an array of flavonoids plus calcium, potassium, iron, serine, valine, leucine, B1, B2 & B3.

**30 X the Vitamin C compared to oranges,
Camu is the preferred Vitamin C for
children, adults, seniors and athletes.**

Camu Camu is the natural choice for Vitamin C because it is a food-state nutrient, not a synthetic chemical look-a-like, of this essential nutrient. Camu Camu's minerals and amino acids naturally facilitate complete absorption and assimilation of this exceptional Vitamin C food.

Vitamin C supports:

- immune response
- adrenal glands (the stress glands)
- collagen production
- heart and lung health
- vision, skin and gum health
- tendon and ligament health
- liver health
- brain health and mood balance

Supplement Facts

Serving Size: ½ teaspoon (1.35g)

Servings per container: 64

Ingredients: Camu Camu (*Myrciaria dubia*)
fruit powder

Other ingredients: None

- **Modest amounts of real Vitamin C improves circulation**
- **Vitamin C is a major regulator of cell behavior**
- **Vitamin C is an essential nutrient with diverse roles in health**

In the early stages of atherosclerosis, toxic (rancid) fats from animal and cooked oils make white blood cells stick to arterial walls, starting an inflammatory process that can lead to heart disease or stroke.

Extensive research has shown that Vitamin C can help to prevent this process. Camu Camu is the first choice for bio-active Vitamin C and its metabolites.

Camu Camu Fruit Powder is guaranteed free of corn, dairy, soy, sugar, wheat, yeast, flavors or preservatives.

Suggested use: Adults and children (age 2 and older) take ½ teaspoon 1 or 2 times daily mixed in water, juice or smoothies.

Camu powder can also be consumed on its own. More can be taken as necessary.
